

## CSCI 332 Report for Elbonia Beard Foundation CIO:

The Elbonian Beard Foundation maintains for public research purposes a database on beard length correlated to both genomic and socio-economic data. Your committee is charged with writing a report for the Beard Foundation CIO regarding the applicability of ideas from "A Firm Foundation for Private Data Analysis" to policies of the Foundation regarding its database.

- What potential problems with our database does the article identify?
- What potential solutions does it identify?
- What open problems remain?
