```
11111111
11011011
11111111
10111110
10111110
10111101
11000001
11111111
```

1. To generate a bitmap, the image is first partitioned into a grid of pixels, here 8 × 8.

2. For a black-and-white bitmap, a black pixel is represented with a 0 bit, a white pixel with a 1 bit.
