Homework 1

Using Microsoft Visio (available as an *app* in your HuskyNet Virtual Lab), replicate the flowchart for Program 6-19 shown on page 10 of Appendix D: Introduction to Flowcharting.

Your flowchart should also include the following information:

- Your Name
- "CSCI 201"
- Your section number
- The current semester
- "Homework 1"
- The name of the program (in this case, Program 6-19)
- A brief description of the purpose of the program

Save your finished flowchart to a directory for this class (you created in your HuskyNet file space) as a Visio drawing file (*.vsd) and also save as a PDF file for submission to the appropriate D2L Dropbox.
